

IN THE TITLE:

Please delete the existing title (~~Monoclonal Antibody Against Asialo Alpha-1 Acid Glycoprotein, Immunochemical Strip Comprising The Monoclonal Antibody, And Method For Diagnosing Liver Diseases Using The Immunochemical Strip~~) and substitute therefor
--METHOD FOR DIAGNOSING LIVER DISEASES--.

IN THE SPECIFICATION:

Please amend line 20, page 5 through line 2, page 6 of the specification as follows:

In order to settle above-mentioned technical problems and to diagnose a liver disease rapidly and easily by detecting asialo glycoprotein, the present inventors have attempted to develop a monoclonal antibody specific for asialo α 1-acid glycoprotein (AsAGP), a diagnostic method for liver disease by using said monoclonal antibody and a diagnostic strip for immunochromatography useful for the same method. As16.89 (lymphoblast-like hybridoma cell lines), assigned accession number KCTC 10261BP, has been deposited in the Korean Collection for Type Cultures, Korea Research institute of Bioscience and Biotechnoloty (KRIBB) #52, Oun-dong, Yusong-ku, Taejon 305-333, Republic of Korea, as International Depositary Authority as established under the Budapest Treaty on the International Recognition of the Deposit of Microorganisms for the Purposes of Patent Procedure on May 24, 2002.
